

We are told, "No news is good news," this is not always true. Some news never makes it into the papers or on television because it is bad news for the elite liberals who are seeking to control all news that may be adverse to their agenda. Recently two people were murdered in America by hate-filled culprits. Both murders received television time as well as newspaper coverage, as they should. But don't you find it a little strange that a young American soldier was killed by a radical Muslim, and compared to the above cited murders received very little media coverage?

The elite liberals, including left-wing newspapers and television networks have a "love affair" with the radical Muslims. Murdering a doctor who killed countless babies, and I'll agree that that was very wrong, gets full media attention, but not a young soldier just one of basic training who was killed by a Muslim terrorist. One would have to be retarded not to see media bias in today's newspaper and television reporting. Can Democracy endure when the news media is biased and sometimes liars? Are we any better if we swallow "hook line and sinkers" all they report?

A CENTIPEDE FOR A PET

There was a man who didn't have a hobby, but realized his need for one. After considering various hobbies, he decided he would just buy a pet. So he went down to the local pet shop, and after looking at the various pets, settled on a centipede, which had at least one-hundred legs. The shop gave him a box to keep his new pet in, and off for home he went.

On Sunday, he decided it would be nice to take his centipede to church with him. So he walked over to the box and asked, "Do you want to go to church with me?" There was no reply. Again, he asked, "I said, do you want to go to church with me?" Again, there was no answer. The third time he screamed out, "Do you want to go to church with me?" This time the centipede called back, "I heard you the first time, I'm putting on my shoes."

Now a few of my readers and listeners have written me letters, but didn't sign their message. And some have written me more than once. I heard you the first time, but until you cultivate the backbone to sign your messages and notes, I can't dignify your efforts.

ANTIPSYCHOTIC DRUGS FOR CHILDREN

Some of America's "do-gooders" have concluded that children, of depressed parents also need antidepressant drugs. So the manufactures of antipsychotic drugs have opened up their arms wide to this new movement. Like everything else, it is a money movement for the drug industry. Here is what Kenneth Towbin, a psychiatrist with the National Institute of Mental Health had to say recently in USA Today: "I'm a little concerned.... that soon we'll be seeing 4,5, and 6 year-olds treated with these agents."

HOW THE DIFFERENT "ISMS" WORK

Socialism: If you have two cows, you give one to your neighbor.

Communism: If you have two cows, you give them to the government; then the government sells you some milk.

Fascism: If you have two cows, you keep the cows and give the milk to the government; then the government sells you some milk.

New Dealism: If you have two cows, you shoot one and milk the other, then you pour the milk down the drain.

Nazism: If you have two cows, the government shoots you and keeps the cows.

Capitalism: If you have two cows, you sell one and buy a bull.
