Recent drug indictments that had been handed down by the Macon County Grand Jury were served on Monday, November 19.

The Macon County Sheriffs Department began serving the 19 indictments and by late Monday afternoon, fifteen had been served.

Detective Donnie Crawford has been working drug investigations since March of this year, including the buying and selling of narcotics, marijuana, methamphetamine, morphine, heroine, hydrocodone, and other miscellaneous schedule drugs.

Members of the Macon County Sheriffs Department, along with assistance from officers of the Lafayette Police Department went to various locations in the county and served these indictments. The department started early in the day and before it was over they also discovered two non-active meth labs, along with more narcotics.

Sgt. Michael Veatch said that while serving a warrant at an undisclosed location, with Kyle Petty, Donnie Crawford, & Stacy Woodard, he went behind the house where he noticed a green Mountain Dew bottle with material that is consistent with a meth lab. After consent from the homeowner they searched the property and found another meth lab inside the garage.

Those arrested include: Willie Robert Barrette Jr., of Bradley Hollow Road in Lafayette, promotion of methamphetamine.

Glyn Paul Newberry, of Old Hwy 52 in Lafayette, manufacturing of narcotics.
